

## Artesit

### Design

magnus • eschelberg

### Artesit

Seat and backrest of wire mesh, with tubular frame. Support elements of stone.

### Special features

Variety combined with versatility: by arranging the stone support blocks in standing or flat positions, Artesit is available in a variety of symmetric or asymmetric designs. Please refer to our enclosed CD-ROM.

### Dimensions (mm)

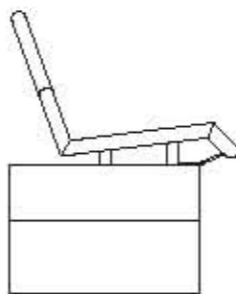

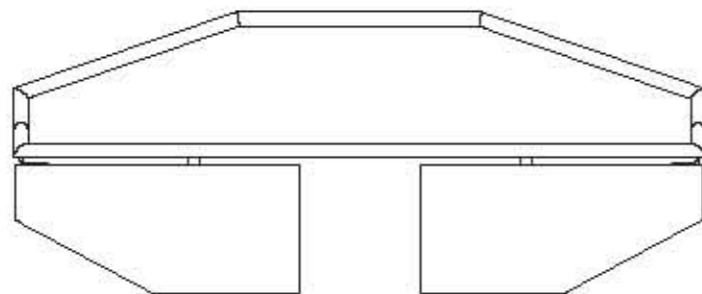

W 2400  
D 605  
H 750

Typical setting: *In full view*

Technical concept: *The bench as a sculpture*

Greatest challenge: *Weightlifters*

Most frequent visitors: *Hedonists*

## Molero

### Design

urbanaaccesso

### Molero

Seat, backrest and legs complement one another in forming a stable, extremely resilient construction that is manufactured from our special aluminium alloy using a die casting process.

### Special features

Due to its modest weight, Molero can easily be transported and re-positioned.

### Fixing options

1. Stationary: secured by means of fixing plates at support leg bases.
2. Movable.

### Dimensions (mm)

W 1540  
D 428  
H 420

Typical setting: *Openness*

Technical concept: *Weightlessness*

Greatest challenge: *Many changes of location*

Most frequent visitors: *Free spirits*
