Stella

Seat and backrest of wire mesh with laser-cut steel support frame. Legs and armrests of galvanized and coated laser-cut steel plates.

Special features

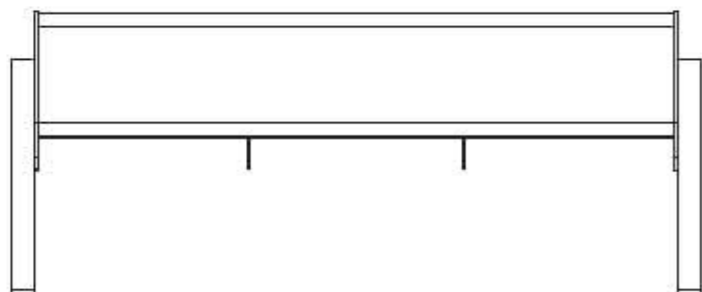

The wire mesh seat and backrest panels are secured to the support frame using a unique concealed fixing detail designed by Erlau.

Fixing options

1. Stationary: secured by means of fixing plates at support leg bases.
2. Movable.

Dimensions (mm)

W	1820
D	670
H	740

Typical setting: *Places to linger* Technical concept: *Generosity*
Greatest challenge: *People in a hurry* Most frequent visitors: *Those seeking a rest*
