Strada

Seat and backrest of wire mesh with sides of laser-cut steel plates. Side frames of square tube which has been mitre-welded.

Special features

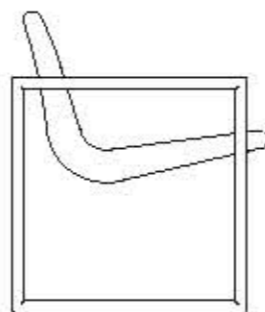

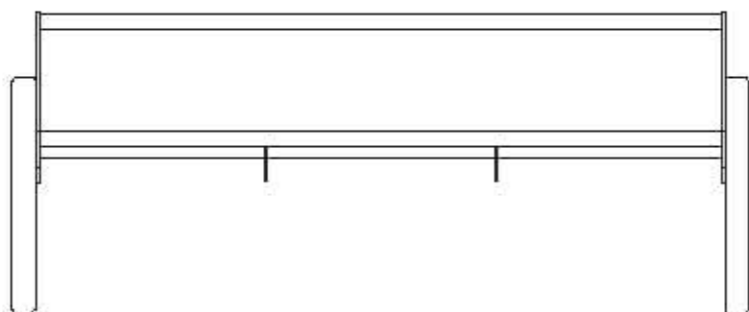

The wire ends are enclosed lengthwise into an Erlau special profile, making them flush to the seat.

Fixing options

1. Stationary mounting by means of screwable fastening plates on the base of the legs.
2. Mobile.

Dimensions (mm)

W 1820
D 630
H 740

Typical setting: *Quite simply, everywhere* Technical concept: *Functional elegance*
Greatest challenge: *Remaining seated* Most frequent visitors: *Seating connoisseurs*
